

GouriShankar Naik Menavath

Frontend Engineer (React / Next.js / E-commerce)

Bengaluru, India — Open to Remote

m.gourishankarnaik@gmail.com — +91 9493518455 — linkedin.com/in/i-gourish

Professional Summary

Frontend Engineer with **4+ years of professional experience** building and scaling **React.js** and **Next.js** applications for **global e-commerce brands** and **multi-site storefronts**. Strong background in **performance optimisation** (Core Web Vitals – LCP, CLS), **scalable component architecture**, and **API-driven frontends** using **REST** and **GraphQL**. Experienced in working across **monorepos**, **PWA architectures**, and **multi-brand platforms**, collaborating closely with product managers, designers, and backend teams in **remote, agile environments** to deliver clean, maintainable, production-ready interfaces.

Technical Skills

Languages

JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries

React.js, Next.js, Redux, Magento PWA Studio, Highcharts

Styling & UI

SCSS, Tailwind CSS, ERB, Responsive Design, Component-based UI Architecture

Data & Backend Integration

REST APIs, GraphQL

Performance & Quality

Core Web Vitals (LCP, CLS), Performance Optimisation, Accessibility, Cross-Browser Compatibility

Tooling & Workflow

Git, GitHub, Bitbucket, Docker, Jira, Trello, Agile/Scrum

Professional Experience

Dayspring Technologies Pvt. Ltd

Jan 2025 – Present

Software Engineer – Frontend

- Designed and implemented interactive dashboards using **Highcharts**, improving reporting clarity and operational decision-making by **30%**.
- Enhanced Ruby on Rails **ERB templates** to improve UI responsiveness, accessibility, and visual consistency across modules.
- Led frontend performance optimisation initiatives, reducing **average page load time by 2 seconds**.
- Collaborated closely with backend engineers to integrate APIs and deliver scalable, maintainable frontend features.
- Actively contributed to code reviews, UI refactoring, and shared frontend patterns.

- Developed and optimised **Next.js-based e-commerce platforms** for global brands, contributing to a **20% increase in user engagement**.
- Built reusable, scalable **React components** supporting **multi-site and multi-brand storefront architectures**.
- Integrated **GraphQL queries and mutations** to improve frontend data efficiency and reduce unnecessary API calls.
- Customised **Magento PWA Studio themes** to meet brand, UX, and business requirements across production stores.
- Worked extensively on **UI bug fixes, performance tuning, and cross-browser compatibility** in high-traffic environments.

Key Projects

Al Fakher (OOKA, SouthSmoke) — Codilar Technologies
Global E-commerce Platforms (Single Next.js Monorepo)

- Worked on multiple international storefronts maintained under a single **Next.js monorepo**.
- Owned major parts of **UI implementation and Core Web Vitals optimisation**, improving **LCP and CLS scores**.
- Built reusable UI components and integrated GraphQL APIs for scalable multi-brand frontend architecture.

Channelbay — Dayspring Technologies
Multi-Channel Inventory Management Platform (Available on Shopify App Store)

- Designed and maintained responsive UI layouts for a centralised inventory and analytics platform.
- Implemented frontend features supporting **multi-channel inventory management**, with Shopify as one of several integrations.
- Added CSS-based **micro-interactions** to improve usability and user feedback.
- Created a **custom Tailwind-inspired styling system** for consistent and scalable UI development.

MARINA Homes — Codilar Technologies
Dubai-based Premium Furnishings Brand

- Designed and customised UI themes using **Magento PWA Studio** and **Tailwind CSS**.
- Developed responsive, accessible components focused on premium UX and performance.

ADGMO — Codilar Technologies
UAE Government Task Management System

- Built responsive UI templates using **Twig, JavaScript, and Bootstrap**.
- Ensured pixel-perfect layouts and cross-browser compatibility.

Education

Bachelor of Technology in Computer Science and Engineering
RVR & JC College of Engineering, Guntur, Andhra Pradesh

2018 – 2023

Remote & Team Collaboration

Experienced working in distributed teams using Slack, Jira, Monday, and Microsoft Teams. Strong self-management skills with consistent delivery in remote and agile environments.
